Welcome to Nado

You have purchased a high quality, fully certified child safety child restraint. This product is suitable for the use of children with height 61cm-125cm and weight up to 21.5kg. Carefully read this Instruction Manual and follow the installing steps because this is the **ONLY** way to protect your child from serious injury or death in case of an accident, and to provide comfort to your child while using this product. Keep this instruction manual for future reference.

Please confirm

To use this Nado enhanced child restraint with the i-Size ISOFIX connections according to the UN Regulation No.129, your child must meet the following requirements.

Rearward Facing: Child height 61cm-125cm/ max. 21.5kg; Please read all the instructions in this manual before installing and using the product.

! IMPORTANT: KEEP FOR FUTURE REFERENCE. PLEASE READ CAREFULLY.

Please keep the instruction manual in the storage compartment at the back of the seat as right figure.

For warranty information, If you have any queries please contact your retailer or:Nado

Warnings

This child restraint system has been approved under Regulation 129 for children of between 61 cm and 125 cm in height.

DO NOT use the rearward facing enhanced child restraint system in seating positions where there is an active frontal airbag installed.

Please do not leave the child unattended in the vehicle. Please read these instructions carefully. Incorrect installation of the child restraint system may cause the child serious injury If used incorrectly, the manufacturer cannot be held responsible.

This seat is included in UN Regulation 129 and can be installed in all vehicles approved under Regulation 16. It can also be installed in the vehicles included on the list attached to this instruction manual.

The rigid items and plastic parts of an Enhanced Child Restraint System shall be located and installed so that they are not liable to become trapped by a movable seat or in a door of the vehicle during everyday use of

the vehicle.

Do not use the safety seat without its cover and without the harness pads.

Protect the child restraint system from direct contact with sunlight, the plastic and metal parts may heat up and burn the child.

Keep the child restraint system away from corrosive liquids, paints or solvents that could damage the product.The child restraint system should be replaced after an accident, even if there are no visible signs of damage.The product may have unseen internal damage that could compromise the child's safety.

Take regular breaks when travelling so the child can get out of the seat and walk around a bit. It is not advisable to travel for more 2 hours at a time without taking a break. This advice is very important for babies.

Make sure that the support leg is always in contact with the vehicle floor, and that the child's harness is correctly fitted and not twisted at all.

Make sure the lap strap is worn low down so that the pelvis is firmly engaged.

Do not make any alterations or additions to the product without the approval of the Type Approval Authority. Follow closely the installation instructions provided by the child restraint manufacturer.

The Enhanced Child Restraint System shall not be used without the cover.

The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.

Do not leave unsecured luggage or objects on the parcel shelf in the vehicle, because in the event of an accident they could cause serious injury to the occupants.

If you have any queries, please contact your retailer or: NADO

Emergency

In case of emergency or accidents, it is most important to have your child taken care of with first aid and medical treatment immediately.

Product Information

1. This is an " i-Size " Enhanced Child Restraint System. It is approved according to UN Regulation No.129, for use in, i-Size compatible vehicle seating positions as indicated by vehicle manufacturers in the vehicle users' manual.

2. If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.

Materials Plastics, metal, fabrics

Installation Mode

	Child's Size	Installation Mode	Figure for Installation	Seat Position
ECE R129	61cm-105cm/ ≤ 21.5kg	Rear Facing mode		Position 1-5
	105cm-125cm/ ≤ 21.5kg			Position Upright

Installation Concerns

Base Installation

see images (1) - (10)

1. Attach the ISOFIX guides to the vehicle's ISOFIX anchor points (see vehicle owner's manual). (1) The ISOFIX guides can protect the surface of the vehicle seat from being torn. They can also guide the ISOFIX connectors.
2. Unfold the load leg from storage compartment. (2)
3. Extend the ISOFIX connectors by pressing the ISOFIX adjustment button while pulling on the connector. (3)
4. Press the ISOFIX adjustment button to adjust the ISOFIX connectors. Line up the ISOFIX connectors with the ISOFIX guides, and then click both ISOFIX connectors into the ISOFIX anchor points. (4)
Make sure that both ISOFIX connectors are securely attached to the vehicle's ISOFIX anchor points. There should be two audible clicks and the colors of the indicators on both ISOFIX connectors should be completely green. (4)

5. Pull the rebound bar towards the back of the vehicle and lock into place by pulling the rebound bar adjustment webbing, when the height of child reaches to 100cm. (5)
6. After placing the base on the vehicle seat, extend the load leg to floor (6). When the load leg is installed correctly, the load leg indicator will turn green. It will turn red when installed incorrectly. (6)
The load leg has multiple positions. When the load leg indicator turns red this means the load leg is in the wrong position.
Make sure the load leg is in full contact with the vehicle floor pan.
Squeeze the load leg adjustment button, then shorten the load leg upwards. (6)
7. The completely assembled base is shown as (7).
The ISOFIX connectors must be attached and locked onto the ISOFIX anchor points. (7-1)

The load leg must be installed correctly with green indicator. (7-2)

Always make sure the support load leg has direct contact with the floor and is in locked position even when the child is not in it.

Removing the Base

8. To remove the base from the vehicle seat, push the secondary lock buttons (8-1) first and then press the ISOFIX releasing buttons (8-2) on the ISOFIX connectors before removing the base from the vehicle seat. (8)

9. Before transporting the seat, press ISOFIX adjustment button and move the ISOFIX connectors back into the storage position. (9)

Height Adjustment for Head Support and Shoulder Harnesses

see images (10) - (11)

1. Please adjust the head support and check if the shoulder harnesses are at the correct height according to (10) & (11). The shoulder harness height must be even with or just below the top of child's shoulders. (10)
Lift up the head support adjustment lever, meanwhile pull up or down the head support until it snaps into one of the 9 positions. The head support positions are shown as (11).

Recline Adjustment

see images (12) - (13)

- Squeeze the recline adjustment button to adjust the enhanced child restraint to the proper position. 15
Adjust the seat recline to any of the 8 recline positions for optimal head and neck support. 16

Rearward Facing Mode (Child height 61cm-125cm/ Child weight 21.5kg)

see images (14) - (18)

Please install the enhanced child restraint on the rear vehicle seat and then put the child in the enhanced child restraint.

1. Press the harness adjustment button while pulling the shoulder harnesses to the desired length (Pull from below the fixed shoulder pads to lengthen). (14)
2. Unlock the buckle of the harnesses by pressing the red button. (15)
3. Fix the buckles on the both sides of seat to make placing the baby more convenient. (16)
4. Place the child into the enhanced child restraint and pass both arms through the harnesses.
5. Engage the buckle. Please refer to (17)

6. Pull down the adjustment webbing and adjust it to the proper length to make sure your child is properly secured. (18)

Always keep child secured in harness and properly tighten the harness by removing any slack.

MAINTENANCE

Fitting / Removing the cover

The cover of the NADO 07 Plus seat is very easy to remove. There are 2 fastening points for the cover on the front. Unfasten these points and gently pull the front part of the cover. (19)

There are plastic parts on the sides of the cover used to fasten it in place. Simply pull gently to remove the cover. (19)

To fit the cover back on, follow the same steps in reverse - insert the side parts in the slot.

Cleaning

The cover can be machine washed using mild detergent and at a maximum temperature of 30°. Please follow the Washing instructions on the care label on the cover.

Do not tumble dry the cover as the padding could come away from the fabric.

Do not expose the cover to sunlight for prolonged periods, when the seat is not in use cover it up or store it in the luggage compartment.

The plastic parts can be cleaned with a damp cloth and neutral detergent.

Recommendations

Keep this instruction book for future reference.

Always store it in the compartment on the backrest of the seat.

Make sure that all luggage as well as any other object that could cause an injury in the event of an accident is properly secured or fastened inside the vehicle.

APPROVED CARS FOR 07 Plus CAR SEAT

Approved cars for the 07 Plus provided that the car is equipped with ISOFIX. The 07 Plus base is also suitable for fixing into the seat positions of the cars listed below, providing approved ISOFIX points are fitted and available. Seat positions in other cars may also be suitable to accept this child restraint, however we have not yet tested that combination of car with the 07 Plus. If in doubt, consult either Alina or the retailer.

Car seat positions marked with * can have a storage compartment in front of the seat, you cannot use the 07 Plus in this position of the car. ISOFIX anchorage in the passenger seat (position 1) are normally offered as an option, so depending on the model this position can be available or not. Installation in the rear seat of a car can limit the space for a passenger in the front seat. Always check the 07 Plus in your car to verify if the available space is acceptable for your situation.

NOTICE: DO NOT USE ON A PASSENGER SEAT FITTED WITH ACTIVATED FRONTAL AIRBAG.
