360° Car Seat - R129

Rearward Facing: Child height 40cm-105cm/ Child weight $\leq$ 19.5kg;  
Forward Facing: Child height 76cm-105cm/ Child weight $\leq$ 19.5kg;

**IMPORTANT - READ THE INSTRUCTIONS CAREFULLY BEFORE USE AND KEEP FOR FUTURE REFERENCE**

## Welcome to Nado

You have purchased a high quality, fully certified child safety child restraint. This product is suitable for the use of children with height and weight up to 105cm and 19.5kg.

Carefully read this Instruction Manual and follow the installing steps because this is the ONLY way to protect your child from serious injury or death in case of an accident, and to provide comfort to your child while using this product.

Keep this instruction manual for future reference.

## Please confirm

To use this Nado enhanced child restraint with the i-Size ISOFIX connections according to the UN Regulation No.129, your child must meet the following requirements.

Rearward Facing: Child height 40cm-105cm/ max. 19.5kg;  
Forward Facing: Child height 76cm-105cm/ max. 19.5kg;

Please read all the instructions in this manual before installing and using the product.

**! IMPORTANT: KEEP FOR FUTURE REFERENCE. PLEASE READ CAREFULLY.**

## Warnings

This child restraint system has been approved under Regulation 129 for children of between 40 cm and 105 cm in height.

DO NOT use the rearward facing enhanced child restraint system in seating positions where there is an active frontal airbag installed.

Please do not leave the child unattended in the vehicle. Please read these instructions carefully. Incorrect installation of the child restraint system may cause the child serious injury if used incorrectly, the manufacturer cannot be held responsible.

This seat is included in UN Regulation 129 and can be installed in all vehicles approved under Regulation 16. It can also be installed in the vehicles included on the list attached to this instruction manual.

The rigid items and plastic parts of an Enhanced Child Restraint System shall be located and installed so that they are not liable to become trapped by a movable seat or in a door of the vehicle during everyday use of

the vehicle.

Do not use the safety seat without its cover and without the harness pads.

Protect the child restraint system from direct contact with sunlight, the plastic and metal parts may heat up and burn the child.

Keep the child restraint system away from corrosive liquids, paints or solvents that could damage the product. The child restraint system should be replaced after an accident, even if there are no visible signs of damage. The product may have unseen internal damage that could compromise the child's safety.

Take regular breaks when travelling so the child can get out of the seat and walk around a bit. It is not advisable to travel for more 2 hours at a time without taking a break. This advice is very important for babies.

Make sure that the support leg is always in contact with the vehicle floor, and that the child's harness is correctly fitted and not twisted at all.

Make sure the lap strap is worn low down so that the pelvis is firmly engaged.

Do not make any alterations or additions to the product without the approval of the Type Approval Authority. Follow closely the installation instructions provided by the child restraint manufacturer.

The Enhanced Child Restraint System shall not be used without the cover.

The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.

Do not leave unsecured luggage or objects on the parcel shelf in the vehicle, because in the event of an accident they could cause serious injury to the occupants.

If you have any queries, please contact your retailer or: NADO

## Emergency

In case of emergency or accidents, it is most important to have your child taken care of with first aid and medical treatment immediately.

## Product Information

1. This is an " i-Size " Enhanced Child Restraint System. It is approved according to UN Regulation No.129, for use in, i-Size compatible vehicle seating positions as indicated by vehicle manufacturers in the vehicle users' manual.

2. If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.

## Materials

Plastics, metal, fabrics

## Choose Your Installation

ECE R129	Child's Size	Installation Mode	Figure for Installation	Reference Age	Internal Position	Seat Position
	40cm-105cm/ ≤ 19.5kg	Rear Facing mode		<15 months	Position 1-3	The most reclined
	76cm-105cm/ ≤ 19.5kg	Forward Facing Mode		15 months to 4 years	Upright	Position 1-4

Child's Age	Installation Mode	Installation	Misuse Button
≤15 Months	Rear facing mode		
>15 Months	Rear/Forward facing mode		

## Installation Concerns

## Base Installation

see images (1) - (8)

1. Attach the ISOFIX guides to the vehicle's ISOFIX anchor points (see vehicle owner's manual). (1) The ISOFIX guides can protect the surface of the vehicle seat from being torn. They can also guide the ISOFIX connectors.
2. Unfold the support leg from storage compartment. (2)
3. Extend the ISOFIX connectors by pressing the ISOFIX adjustment button while pulling on the connector. (3)
4. Press the ISOFIX adjustment button to adjust the ISOFIX connectors. Line up the ISOFIX connectors with the ISOFIX guides, and then click both ISOFIX connectors into the ISOFIX anchor points. (4)  
Make sure that both ISOFIX connectors are securely attached to the vehicle's ISOFIX anchor points. There should be two audible clicks and the colors of the indicators on both ISOFIX connectors should be completely green. (4)

Check to make sure the base is securely installed by pulling on both ISOFIX connectors.

5. After placing the base on the vehicle seat, extend the support leg to floor (5). When the support leg is installed correctly, the support leg indicator will show green. Red will be shown when installed incorrectly. (5-2)  
The support leg has multiple positions. When the support leg indicator shows red this means the support leg is in the wrong position.

Make sure the support leg is in full contact with the vehicle floor pan.

Squeeze the support leg adjustment button, then shorten the support leg upwards. (5-1)

6. The completely assembled base is shown as (6).  
The ISOFIX connectors must be attached and locked onto the ISOFIX anchor points. (6-1)

The support leg must be installed correctly with green indicator. (5-2)

Always make sure the support support leg has direct contact with the floor and is in locked position even when the child is not in it.

### Removing the Base

7. To remove the base from the vehicle seat, push the secondary lock buttons (7-1) first and then press the ISOFIX releasing buttons (7-2) on the ISOFIX connectors before removing the base from the vehicle seat. (7)
8. For transporting, press ISOFIX adjustment button and move the ISOFIX connectors back into the storage position. (8)

## Height Adjustment

for Head Support and Shoulder Harnesses

see images (9) - (11)

1. Please adjust the head support and check if the shoulder harnesses are at the correct height according to (9) & (10) & (11)

When used in rearward facing mode, the shoulder harness height must be even with or just below the top of child's shoulders. (9)

When used in forward facing mode, the shoulder harness height must be even with the top of child's shoulders. (10)

Pull the head support adjustment lever (11-1), meanwhile pull up or down the head support until it snaps into one of the 6 positions. The head support positions are shown as (11-2).

## Recline Adjustment

see images (12) - (15)

Squeeze the internal recline adjustment button to adjust the enhanced child restraint to the proper position. (12)  
Rear facing mode have 3 recline positions, the recline angles are shown as. (13)

Squeeze the recline adjustment button to adjust the enhanced child restraint to the proper position. (14)  
Forward facing mode have 4 recline positions, the recline angles are shown as. (15)

## Rearward Facing Mode

(Child height 40cm-105cm / Child weight 19.5kg)

see images (16) - (26)

Please install the enhanced child restraint on the rear vehicle seat and then put the child in the enhanced child restraint.

1. Push the enhanced child restraint down onto the base (16). If the enhanced child restraint is secure, the enhanced child restraint indicator will show green. (17)
2. To release the enhanced child restraint, first take the child out of the child restraint. Pull the child restraint release strap (18-1), then lift the child restraint up (18-2). The enhanced child restraint can be installed and released when in any positions.
3. Press and hold the ISOFIX adjustment button and push the enhanced child restraint system back until it comes in contact with the vehicle seatback. (19)
4. Pull and hold the rotation button to rotate for easier side loading/unloading of the child, then rotate the seat to the rear facing position.(20)  
Always make sure the seat is in locked position (rearward facing / forward facing) when the child is in it.  
Pull the rotation button to rotate the enhanced child restraint.
5. Press the harness adjustment button while pulling the

- shoulder harnesses to the desired length (Pull from below the fixed shoulder pads to lengthen). (21)
6. Unlock the buckle of the harnesses by pressing the red button. (22)
7. Place the buckle tongues on the outer side of the enhanced child restraint so that the tongues are held in place. (23)

### Use Infant Insert

8. Place the child into the enhanced child restraint and pass both arms through the harnesses.
9. Engage the buckle. Please refer to (24)

- 10.Rotate the enhanced child restraint to the rear facing position. The enhanced child restraint indicator will show green. (25)
- 11.Pull down the adjustment webbing and adjust it to the proper length to make sure your child is properly secured. (26)

## Forward Facing Mode

(Child height 76cm-105cm/ Child weight 19.5kg/

Child's Age 15 Month )

see images (27) - (33)

Please install the enhanced child restraint on the rear vehicle seat, and then place the child in the enhanced child restraint.

Please slide misuse button to left to rotate the enhanced child restraint to the forward facing mode. (27)

1. Pull the rotation button to rotate for easier side loading/unloading of the child, then rotate the seat to the forward facing position. (28)

Pull the rotation button to rotate the enhanced child restraint.

2. Press the harness adjustment button while pulling the shoulder harnesses to the desired length (Pull from below the fixed shoulder pads to lengthen). (29)

3. Unlock the buckle of the harnesses by pressing the red

button. (30)

Remove the infant insert when in forward facing mode.

4. Place the buckle tongues on the outer side of the enhanced child restraint so that the tongues are held in place. (31)

5. Rotate the enhanced child restraint seat to forward facing the enhanced child restraint indicator will show green. (32)

Always make sure the seat is in locked position (rearward facing / forward facing) when the child is in it.

6. Pull down the adjustment webbing and adjust it to the proper length to make sure your child is properly secured. (33)

Always keep child secured in harness and properly tightened by removing any slack.

DO NOT use forward facing unless your child is at least 76cm AND 15 months old.

## MAINTENANCE

### Fitting / Removing the cover

The cover of the NADO O3 Lotus seat is very easy to remove

There are 4 fastening points for the cover on the front. Unfasten these points and gently pull the front part of the cover. (34)

There are plastic parts on the sides of the cover used to fasten it in place. Simply pull gently to remove the cover. (34)

To fit the cover back on, follow the same steps in reverse - insert the side parts in the slot.

### Cleaning

The cover can be machine washed using mild detergent and at a maximum temperature of 30°. Please follow the Washing instructions on the care label on the cover.

Do not tumble dry the cover as the padding could come away from the fabric.

Do not expose the cover to sunlight for prolonged periods, when the seat is not in use cover it up or store it in the luggage compartment.

The plastic parts can be cleaned with a damp cloth and neutral detergent.

### Recommendations

Keep this instruction book for future reference.

Make sure that all luggage as well as any other object that could cause an injury in the event of an accident is properly secured or fastened inside the vehicle.

## APPROVED CARS FOR O3 Lotus CAR SEAT

Approved cars for the O3 Lotus provided that the car is equipped with ISOFIX. The O3 Lotus base is also suitable for fixing into the seat positions of the cars listed below, providing approved ISOFIX points are fitted and available. Seat positions in other cars may also be suitable to accept this child restraint, however we have not yet tested that combination of car with the O3 Lotus.  
If in doubt, consult either alina or the retailer.

**NOTICE: DO NOT USE ON A PASSENGER SEAT FITTED WITH ACTIVATED FRONTAL AIRBAG.**

ISOFIX anchorage in the passenger seat (position 1) are normally offered as an option, so depending on the model this position can be available or not. Installation in the rear seat of a car can limit the space for a passenger in the front seat. Always check the O3 Lotus in your car to verify if the available space is acceptable for your situation.
